Weekly Update

July 7, 2023

STOLEN E-BIKE

On Sunday July 2, between 1:00 & 3:00 pm one of Connaught's Junior golfers had his Black Jetson E-Bike stolen. There was a U13 Provincial Champion Sticker on the bike that may help to identify. The Bike was chained to the fence along the path by the gate. The lock was broken and left there but the bike was gone.

Were you golfing and happen to have a dash cam in your vehicle that shows anything suspicious that day or if anyone seen anything that could help in finding his bike please contact the proshop or the office.

Any help in this matter would be appreciated.

Where the bike was parked

Grounds

Hello members;

Recently, concerns regarding how golfers with blue flags on carts have been parking. Specifically around greens and tee boxes.

I have spoken with Justin about this. He has two concerns. Firstly, carts on green collars and aprons can do damage to the grass. Secondly, carts parking close to bunkers, or between bunkers and water can damage the integrity of bunkers. Both of these require man-hours to address. Man-hours that can be better spent in other areas.

CGC Blue Flag policy states that carts with a blue flag park no closer than 30 feet (about 10 steps) from greens. I appreciate that there are members with significant mobility issues. These members should be able to play golf. If you have significant mobility issues and are experiencing difficulty, please speak with Brian or Justin individually. To increase awareness, I have attached photos of areas where golf carts should NOT be parked.

Please take a moment to view.

Thank you.

Good golfing.
Miles Thorson - President
